

Alberta Collaboration for Learning

The fast-growing Alberta Collaboration for Learning has built a comprehensive library of Alberta Program of Studies content in both synchronous and asynchronous formats. From 2019-2024, more than 140 professionals collaborated on and vetted a full suite of Alberta online K-12 courses.

Built using Hāpara Workspace, the Alberta curriculum courses are easily accessible from Hāpara or Google Classroom. In Hāpara Workspace, school divisions have access to a private library of course units and lessons. This content can be adapted and localized to specific learning situations and communities. Teachers can also copy and modify the content for their learners' needs and share the content with groups or individual learners.

As new curriculum is released, content will continue to be added and updated in Hāpara Workspace.
