

7 reasons to love Hāpara

See why schools love Hāpara

Every school wants digital learning in Google Workspace or Microsoft 365 to be safe and engaging, but it can be a challenge to keep everyone on track. That's where Hāpara helps. We make digital classroom management simple, letting teachers see what learners are doing online in real time. With this visibility, teachers can keep learners focused and help them make better choices.

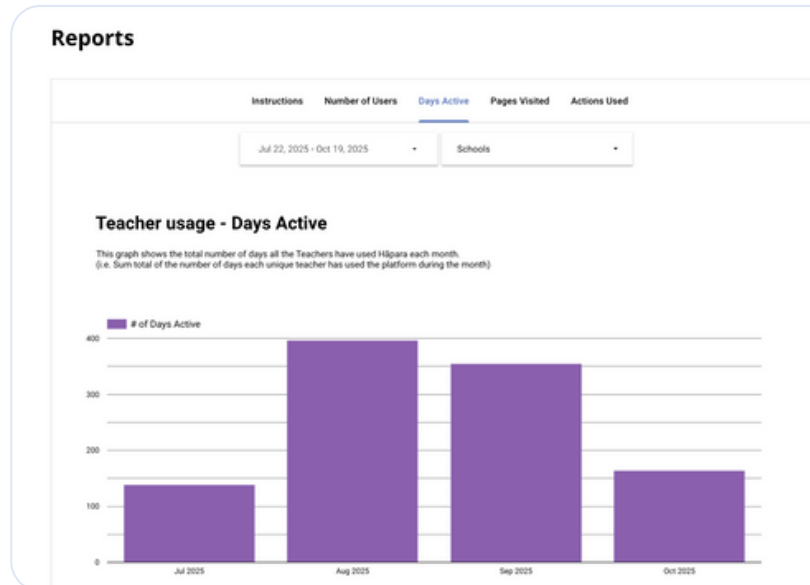

Hāpara isn't just about keeping an eye on screens. It's about helping learners grow as digital citizens and build executive functioning skills. Our tools are straightforward, and if you ever need a hand, our support team has your back. With Hāpara, you have a partner in powering safe and engaged digital learning.

1 Cost savings

“To be honest, it was a ridiculous cost savings for us. For me to be able to go to the Board of Education and say we’re not losing anything and getting this much more for almost a third of the cost was a huge win, especially with ongoing state budget cuts.”

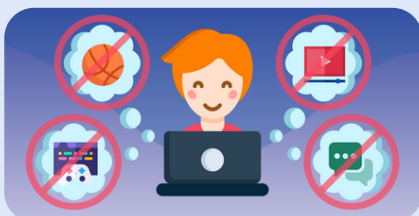

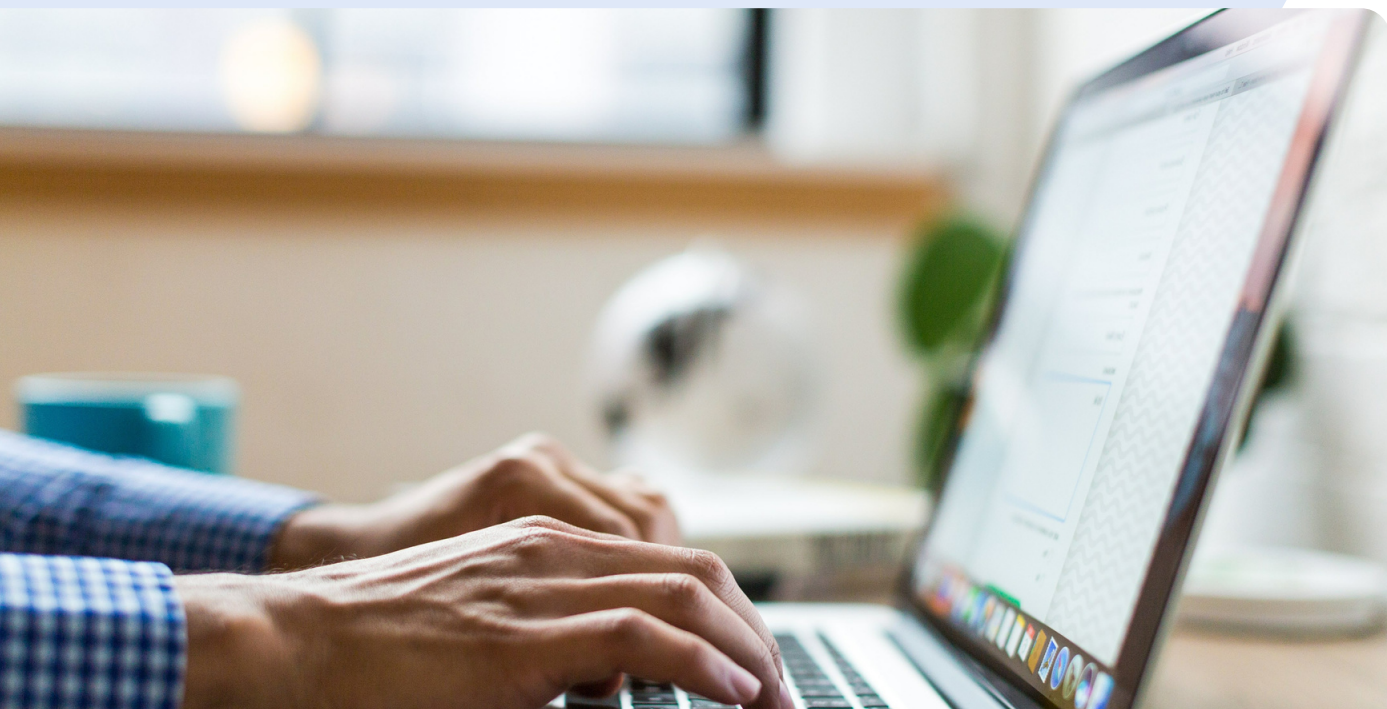

Kyle Calderwood,
Technology Coordinator,
Tabernacle Township, NJ

2 Unparalleled support

“The customer service that Hāpara offers is second to none. It’s unlike any other company that we’ve worked with.”

Phil Ledford, Instructional Technology Coordinator,
Elizabethton Schools, TN

Why Elizabethton Schools chose Hāpara for focus

3 Teachers like it better

“Such a great program. Much better than Go Guardian.”

Tricia Dux, Educator, Vallivue School District, ID

“I love it. So much better than other programs. Gives you control of the classroom.”

Ruth P., Educator

“It's the most user-friendly and versatile student monitoring program I have ever used!”

Bernard H., Educator, Knox County Schools, TN

4 Smooth rollout and adoption

“The teachers have been very excited about it, and our training was a great reminder of why we went with Hāpara in the first place ... it's easy! It's very straightforward, intuitive and user friendly, and our teachers really did love it.”

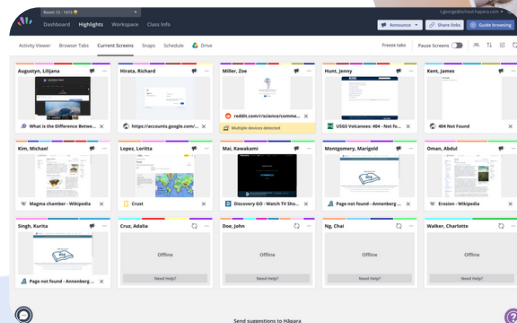

Clint Mitchell, Technology Administrator,
Kansas City Christian School, KS

5 Personalized instruction

“ I love Hāpara so much! I just started using the program this year, and it has radically changed the way I teach whenever students are on computers (about 20% of my lessons). Hāpara allows me to sit and work or conference with individual students, while also keeping an eye on what the entire rest of my class is working on. It allows me to focus on individual student needs in a whole new way.”

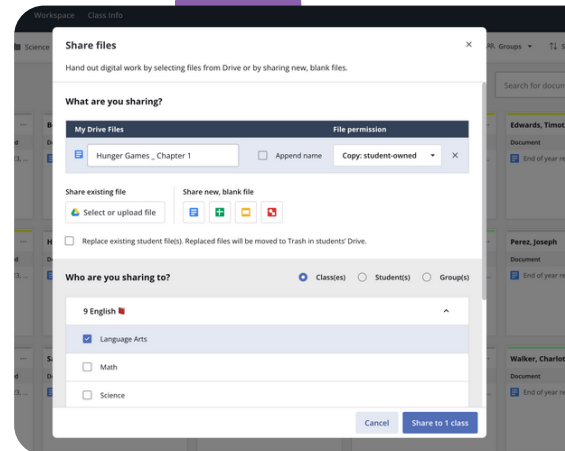

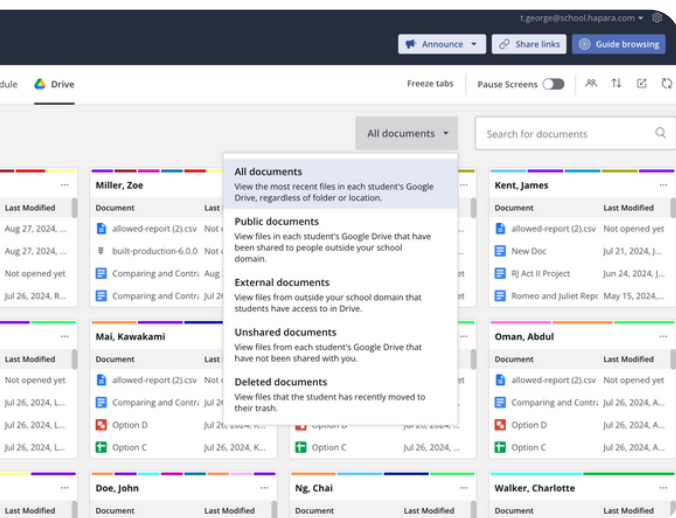

Clayton Winter, Educator,
School of the Future, NYC

6 Streamlined Google Workspace

“There was a link that wasn't working, so I was able to hop into the Hāpara dashboard and add the file to everybody's Google Drives. It solved the problem in 30 seconds.”

Dawnley Raíces, Educator,
Pasadena Unified School District, CA

Why Pasadena Unified relies on Hāpara for classroom management

7 Students love it

“Hāpara makes it really easy to follow along and follow my teacher’s directions when she can send me the link that we’re working on.”

Student, Lexington, SC
